

Recruitment finance proves to be a 'one stop shop' for recruitment agency

A West Sussex temporary and permanent recruitment agency has used recruitment finance to boost its investment capabilities to further grow the business.

First established in 2003, Solutions 2 Recruitment wanted an invoice finance provider to help with their cash flow in order to pay their temporary staff. As a new start up, cash flow was a major issue but it was also important that they outsourced the payroll administration.

When looking for a facility, Solutions 2 Recruitment approached several providers after an online search through Google. Ultimately, they chose Hitachi Capital Invoice Finance because of the personal level of service promised.

Since using Recruitment Finance, they have used the boost in cash to invest in their business to allow it to further grow. The outsourcing of their payroll function means they do not have to worry about recruiting staff to manage this process as it's all organised by Hitachi Capital.

Mike Copeland, Director comments "We have used Hitachi Capital for seven years and have been thoroughly happy with the level of professional and personal service consistently provided. Without this facility we wouldn't be in the strong position that we are in today."

John Atkinson, Head of Commercial Business said "Having a client for this length of time is a real testament to the great service we provide our clients. Without our dedicated team in Telford and Goring we wouldn't be able to do this. Our great service really makes us stand out from the competition and we look forward to working with Solutions 2 Recruitment for many more years to come."
